[illegible]

YEAR TOTAL

HOW TO USE

Write the month in the left column, then mark each day you schooled. Use any code you like — many families use ✓ for a full day, H for a half day, F for a field trip. Total the days and hours in the two right-hand columns. Requirements differ by state: some count days, some count hours, some count neither. Check your own state's rule before you rely on this sheet — the DAYS REQUIRED box at the top is there to keep your target in front of you.
